

Sandy School

Capital | Thermal

Sandy Secondary School's new development delivers 25 modern classrooms across a dedicated teaching block and SEND block, enhancing learning spaces for students. Designed for efficiency and comfort, the expansion supports an inclusive and dynamic educational environment.

Proudly partnering with Box & Charnock, with ASHE Construction as the main contractor, Capital Thermal provided Thermal Insulation, Acoustic Insulation, Aluminium Cladding, Trace Heating, and Valve Jackets—ensuring a well-regulated and energy-efficient space for future generations.

Overall services provided on this project include:

Thermal
Insulation

Acoustic
Insulation
& Trace
Heating

Aluminium
Cladding &
Valve Jackets
